Professional Summary

Results-driven Software Developer with 3+ years of experience in designing, developing, and implementing scalable web and software applications. Adept at collaborating with cross-functional teams to deliver high-quality solutions. Passionate about writing clean, efficient code and staying up to date with emerging technologies.

Technical Skills

- Languages: JavaScript, Python, Java, C++
- Web Technologies: React.js, Node.js, Express.js, HTML, CSS, Tailwind CSS
- Databases: MySQL, MongoDB, PostgreSQL
- Tools & Platforms: Git, Docker, AWS, VS Code, Linux
- Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), REST APIs, Agile Methodologies

Work Experience

Software Developer

ABC Technologies | Jan 2022 - Present

- Developed and optimized scalable backend APIs using Node.js and Express.js, reducing response time by 30%.
- Led a team of 4 developers in implementing a real-time chat application using WebSockets.
- Designed and maintained relational and NoSQL databases, improving query performance by 25%.
- Integrated third-party APIs for payment processing, authentication, and cloud storage.

Software Engineer Intern

DEF Solutions | June 2021 - Dec 2021

- Assisted in developing a web-based dashboard using React.js and Redux for data visualization.
- Improved website performance by 20% through code optimization and lazy loading techniques.
- Collaborated with backend engineers to design and implement RESTful APIs.

Education

Bachelor of Technology (B.Tech) in Computer Science

JECRC University | 2018 - 2022

Projects

Pollution Tracker Web App

- Developed a React-based pollution monitoring website that visualizes real-time AQI data using APIs.
- Implemented geolocation services to provide location-based pollution alerts.

Al-Powered Chatbot

- Built an interactive chatbot using Node.js, Express, and a pre-trained NLP model.
- Deployed the chatbot on a web platform to assist users with automated responses.

E-commerce Website

- Designed a full-stack e-commerce platform with React, Node.js, and MongoDB.
- Implemented a secure authentication system using JWT and OAuth.

Certifications

- AWS Certified Developer Associate
- Google Cloud Associate Engineer
- Data Structures & Algorithms Certification (Udemy)

Extracurricular Activities

- Software Coordinator at University Robotics Club
- Contributor to open-source projects on GitHub
- Speaker at local tech meetups on React.js and Node.js

Additional Information

- Languages: English (Fluent), Spanish (Intermediate)
- Interests: AI/ML, Hackathons, Open-Source Development
